

BLOWSOL™ Solutionizing compressed air blowing
Compressed air is widely used for blowing operation across the industries. Now you can choose precise solutions for your applications, thus saving on compressed air and improving on efficiency of operator as well as operations.

Benefit of General Imsubs BLOWSOL™

1. Widest range of products, available off the shelf.
2. Conventional as well as specific products.
3. Availability of attachments, hence no need to change existing blow off devices, just add attachment and start saving.
4. Reliable and sturdy designs.
5. Meets various blowing and cleaning requirements in plant, workshops and factories.
6. Reduces compressed air consumption and operator fatigue.

Ergonomic Air blow gun, D-04-1

Low cost, ergonomic blow gun to replace your existing blow guns. Reduces operator fatigue, increases productivity.

3 pcs blowgun kit, SAB-204

Time tested, robust blow gun made to give you trouble free operations.

3 pcs delux blowgun kit, SAB-502

Ergonomic, robust blow gun with 100 mm extension pipe and adjustable blow nozzle, with quick release adaptor.

Pocket blow gun, SAB-08

Personal blow guns for operators on move. Integral quick release adaptor and clip, weigh just 25 grams.

4" / 20" Blow Gun / Brass Inlet, A04-2 / A20-2

100 mm / 600 mm extension tube type blow gun, ergonomic design, brass insert inlet, suspension hook.

Siphon tip blowgun, SAB-518

Ideal for targeted spray cleaning. Aluminum alloy body, Spray clean difficult to reach areas in machines, engines & cars. 225 mm (9") long spray tip. Two in one operation, light weight, 2 mtr. Long clear view hose with inlet filter.

Siphon Clean Blow Gun, N230

General purpose liquid Sprayer to clean machines, engines, cars. Two in one operation, light weight, 2 mtr. Long clear view hose with inlet filter.

Automotive workshop, brake servicing

Brake Bleeder Kit, SH-1001

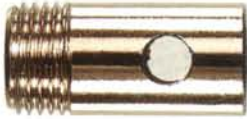

Ideal companion for automotive workshop. Universal adaptor for all type of bleed nozzle, Automatic fast refilling. Supplied with vacuum bleeding hose and refilling bottle.

Productivity attachments

Choose these productivity attachments, which fit on our blow guns and make them multi purpose tools.

Safety tips

Meets OSHA dead end safety requirements. Available in plated brass SP-02, Brass SP-03 for SAB-204 and SAB-502 and aluminum slide on type S-01 and S-02 for A04-2, A20-2

Rubber coated tips

For cleaning delicate parts. Available in 13 mm (SP-05), 25 mm (SP-06) and 38 mm (SP-07) diameter and set of 3 (SAB-3R). Fits on SAB-204 and SAB-502

Slide on tips are also available for A04-2, A20-2 in 3 sizes. 13 mm (R-01), 25 mm (R-02) and 38 mm (R-03) diameter.

Adjustable tips

Air saving by adjusting thrust and air volume. Fits on SAB-204 and SAB-502

Tire inflator tip

Inflates tyre, ideal companion for blow guns in automotive workshops. Fits on SAB-204 and SAB-502

Air screen tip

28 mm Wide area blow for faster cleaning of large flat area. Fits on SAB-204 and SAB-502

Safety booster tip

Air amplifying safety tip. Meets OSHA safety requirement. Fits on SAB-204 and SAB-502

Nylon tip

85 mm long, pointed nylon nozzle for deeper reach in delicate holes. Fits on SAB-204 and SAB-502

Needle tips

Various sizes for fine blowing. Available in 1 Ø X 24 L (SP-18), 1.3 Ø X 30L (SP-17), 1.8 Ø X 44 L (SP-16), 2.4 Ø X 63 L (SP-15), 4 Ø X 71 L (SP-14) & 1.4 Ø X 100 L (SP-13). Also available in set of 5 - order code SAB-5S (SP-14 to SP-18). Fits on SAB-204 and SAB-502

Long extension tips

Long extension tips in 4 sizes for extended reach. Available in 100 mm (SP-19), 350 mm (SP-20), 600 mm (SP-21), 300 mm safety extension tube (SP-22). Fits on SAB-204 and SAB-502

Telescopic Extension tips

Versatile, easy to use, quick extend type telescopic tips. Available in angled 300 mm to 530 mm (SP-24) with safety tip and straight rubber tipped 300 mm to 530 mm (SP-23). Fits on SAB-204 and SAB-502
