

General imsubs

Quality
Water Valves

Large
valve series

25 mm / 50 mm (1 / 2 inch) water solenoid valves

Features

- ✓ Pilot operated diaphragm type valves.
- ✓ Available in Normally closed and bistable (Latching) type.
- ✓ Choice of operating voltage – 12V DC, 24V AC, 230V AC & 6-40V DC Latching type.
- ✓ Various Models with manual over ride and flow controller.
- ✓ High flow, lower pressure drops.
- ✓ Durable synthetic rubber diaphragm.
- ✓ Sturdy, weather and corrosion resistant reinforced nylon body.
- ✓ Weather proof, encapsulated coil.

Applications

- ✓ Automatic water taps and faucets.
- ✓ WC flushing systems.
- ✓ Industrial water treatment plants.
- ✓ Farm & Garden Irrigation systems.
- ✓ Landscape watering and management systems.

We also manufacture:

Solenoid valves for washing machines, dish washers, vending machine, domestic RO systems, small valves from ¼” to ¾” BSP size.

About Us :

General Imsubs is pioneer manufacturer of water valves in India since 1992. We have been manufacturing wide range of water valves catering to the need of growing appliances industry.

Valve manufactured by General Imsubs complies to stringent international product standards like UL, CE, EN, VDE and JIS.

All valves supplied by General Imsubs are warranted for performance and we offer warranty to all OE customers. Our sophisticated manufacturing and tracking systems can track valves upto its component and raw material level. All valves are custom labeled with customer name to ease tracking even at customer end.

Our manufacturing facilities are equipped with sophisticated CNC coil winding machines, specially designed test rigs to check performance of valves.

All valves go through 100% tests, as per applicable international standards.

Because of highest standards met by GIPL valves, they valves are well accepted by valued customers like Electrolux, Onida, Softel in India and we have been exporting valves to US, UK, Argentina, Singapore and other developed countries.
